

Dear Provider,

Thank you for continuing to care for Health First Colorado (Colorado's Medicaid program) members. The Department of Health Care Policy and Financing (HCPF) is seeking your input to improve and expand the use of eConsults for Health First Colorado members. eConsults allow primary care providers to electronically consult with specialists for timely, coordinated patient care.

Even if you use a different platform or you have never submitted an eConsult, we still want your feedback! Please [complete this brief survey](#) by **November 21** to help us understand:

- Current eConsult use
- Barriers to using eConsults
- Opportunities to improve provider support
