

Colorado Specialty CareConnect (CSCC), RMHP's eConsult Platform March 2026, eConsult Chronical

Integrated Workflows with the Contexture PatientCare 360 Portal

Contexture is collaborating with Rocky Mountain Health Plans (RMHP) to support Colorado Specialty CareConnect (CSCC) eConsults—making it easier for primary care providers to get timely specialty input without disrupting clinic workflow.

Planned enhancements are intended to support PCPs by offering:

- **Single sign-on access to CSCC directly from the Contexture PatientCare 360 Portal**, reducing extra logins
- **Secure storage of eConsult summaries**, so specialist recommendations are easier to find when you need them

More details and timing updates will be shared as they become available.

Why it matters for PCPs: This integration is designed to make eConsults easier to access, reduce extra logins, and ensure specialist guidance is easy to find in the patient record—supporting faster clinical decision-making in primary care.
