System Update: Specialty Labeling Enhancement

We've enhanced the eConsult platform to provide clearer labeling for each specialty, indicating whether it is available for Adult or Pediatric. This update helps providers quickly identify the appropriate specialty for their patients, streamlining the consultation process and reducing uncertainty.

Example of New Specialty Labels:

- **Allergy** – Adult
- **Allergy** - Pediatric

When submitting an eConsult, look for the new "Adult" and "Pediatric" labels next to each specialty.

Earn Incentive Dollars for Using eConsults!
