

Hello,

You recently received a communication (late March) indicating that your reimbursement rate under the Rocky Mountain Health Plans Behavioral Health Value Based Payment (VBP) program would decrease effective July 1, 2026. **This notification was sent in error.**

Your current reimbursement rate **will not decrease** on July 1, 2026, and will remain unchanged. As a new provider to the VBP program, you will continue in the lookback period for calendar year 2026. [Your performance during calendar year 2026 will be evaluated](#) to determine any applicable reimbursement rate changes that would take effect on July 1, 2027.

No action is required from you at this time. We apologize for any confusion this may have caused.

If you have questions about the program or your practice's Star rating, email the Behavioral Health Provider Relations team at RMHPRae_BH_PR@uhc.com.

Thank you,
Rocky Mountain Health Plans
