

Dear Valued Partners,

As part of Colorado's System of Care (CoSOC) initiative, we are working to assess provider readiness to deliver key behavioral health services across the state. Your input is essential in helping us understand current capacity and identify areas for support and growth.

We are asking you to complete this brief survey which asks about your organization's current services:

The information you provide will help inform readiness planning and ensure that the provider network is equipped to meet the needs of Medicaid members as CoSOC services expand.

We are asking that you complete this [brief survey](#) (Colorado System of Care (CO-SOC) Services and Alternative Behavioral Health Services for CO-SOC Eligible Youth Survey) by **August 27, 2025**.

Please reach out to annemarie_stiasny@uhc.com if you have any questions,

Colorado Provider Relations Team
