

Rocky Mountain Health Plans (RAE 1) and Northeast Health Partners (RAE 2) are sharing this communication with our behavioral health provider network to provide 90 days' notice of upcoming changes to prior authorization requirements for outpatient psychotherapy services under Health First Colorado (Colorado's Medicaid program).

These changes are being made to align with [Executive Order D 2025 014](#). While the [Department of Health Care Policy and Financing \(HCPF\)](#) is still in the process of finalizing the policy details, we are notifying providers now in preparation for the effective date of January 1, 2026.

At this time, this is all the information we have available. We are committed to keeping our behavioral health provider network informed and will share updates as soon as additional guidance from HCPF becomes available.
