

Thank you for attending the October 2025 CQI Newsroom. Below are the key highlights and resources from the session:

For the recording of today's Newsroom and slides, please visit the landing page. [RMHP Clinical Quality Improvement Newsroom](#)

Resources are posted as well! Visit the landing page for:

[OwnPath Learning](#) developed by the **BHA** to support professional development in behavioral health across the state.

[ASAM Training](#)

[Cultural Competency Trainings](#)- all recordings available!

[OeHI Innovation Grant](#)

[Violet](#)- Clinical Training and Analytics Platform

[VBP Practice Support Opportunity](#)

[VBP Ad Hoc Support](#)

1. ACC 3.0 Updates & Support

- All PCMPs are assigned a Clinical Program Manager (CPM) to support QI efforts, workflow optimization, and data integration.
- Behavioral Health CPMs offer specialized support for integrated care models.
- Quality Track Implementation Timeline
- 2025 (Planning Phase): Identify QI champions, set meeting cadence, and select QI activities aligned with CMS Core Measures.
- 2026 (Doing Phase): Execute QI activities, report eCQM data quarterly, and implement PDSAs/workflows.

3. PRIME Reinvestment Criteria (CY2025)

- Quarterly reporting required for:
 - CMS 2: Depression Screening (Target: 66.33%)
 - CMS 122: Diabetes A1c >9% (Pay for reporting)
 - CMS 137: SUD Treatment Initiation & Engagement (Targets: Part A – 59.60%, Part B – 16.80%)
- Q4 workflow documentation due by January 31, 2026.

4. HCPF APM 1 PY2025

- Final year of the program; structural measures due December 19, 2025.
- Administrative measures calculated by HCPF; outcomes expected Fall 2026.
- eCQM submissions handled by HIEs (Contexture/QHN or Carina Health).

5. Scene Health Overview

- Tech-enabled medication adherence platform with 90% daily adherence rates.
- Proven reductions in ED (26%) and inpatient visits (17%) among high-risk populations.
- Supports chronic conditions like asthma, diabetes, hypertension, and more.
- www.scene.health

- aoverby@scene.health

6. Care Coordination & Transitions of Care

- RMHP teams include RN Case Managers, Social Workers, BH Coordinators, and Outreach Coordinators.
- Real-time ADT alerts and post-discharge outreach within 48 hours.
- Strong partnerships with hospitals, CBOs, and behavioral health agencies.

- RMHPCareManagementReferrals@uhc.com

7. Psychiatric Rehabilitation Principles

Presented by Dr. Kimberly Nordstrom:

- Emphasized 12 core values including hope, empowerment, community integration, and cultural relevance.
- Future discussions will explore multicultural psych rehab and goal-setting.

8. Educational Resources

- Bookmark the [ACC 3.0 Landing Page](#) for updates.
- Explore the [Education & Events Catalog](#) for training opportunities.
- Access [Cultural Competency Resources](#) and [Health Equity Courses](#).

In addition:

Prescriber Tool and Prescriber Tool Alternative Payment Model (APM) Update

The Prescriber Tool is a powerful resource available directly within many Electronic Health Record (EHR) system workflows, giving providers seamless access to vital member pharmacy benefit information. This tool has integrated features such as e-prescribing, Real-Time Benefits Inquiry (RTBI) and electronic prior authorizations to deliver transparency and efficiency at the point of care. Providers can make faster, more informed decisions with instant access to medication coverage details and lower-cost therapeutic alternatives—improving care while managing rising pharmaceutical costs.

The Prescriber Tool APM Year 3 started in October 2025. The APM is designed to incentivize use of the Prescriber Tool and promote pharmacy benefit compliance and cost efficiency when possible. The Prescriber Tool APM shares a portion of the pharmacy program savings generated, if any, from prescriber use of the Prescriber Tool and preferred drug list (PDL) compliance rates among participating practices.

For more information, please view the following resources:
