Digital Commerce Site Updates

Several options on the digital commerce page are being moved and merged to streamline pages and save real estate in the mobile view.

- **Recently Viewed** removed from the homepage and product detail page.
- **Others Also Viewed** on the product detail page removed.
- **May We Suggest** removed from the product list page.
- **Complete Your Project** is now static on the page.

Fixes for the Resupply Program

The Resupply program has had a few bugs fixed.

- Address a bug related to adding items to multiple Resupply stocking locations.
- Enhance error message encountered with empty Resupply stocking location.
- Eliminate preceding or succeeding white space on the Customer Part Number in a Resupply stocking location.

Suggested Purchase Orders bug fixes

The SPO program has received updates to fix bugs related to sorting by certain columns.
