

Small Box Shop continued...

The purpose of the Small Box Shop is to stimulate and sustain economic development in the downtown district by encouraging entrepreneurs to test the market and eventually move into a brick-and-mortar building in the downtown district, thereby creating additional jobs and filling vacant buildings while providing needed goods and services to the community.

We plan to place the Small Box Shops by the end of November, in time for Holiday Shopping. Our sincere thanks to USDA for believing in this project and helping entrepreneurs realize their dreams.
