Theater Design

\$20 Fee

Where

Washington Crossing Council
1 Scout Way
Doylestown, PA 18901

Design Like A Girl introduces adolescent girls to architecture and other professions within the design and construction industry. The program pairs middle school girls with professional women-architects, engineers, interior designers, and more- offering them firsthand insight into these dynamic careers. Its mission is to create opportunities for all girls, regardless of socioeconomic status, race or ethnicity.

Architecture is for everyone! A career in architecture and related fields is accessible to any girl who is creative, motivated and curious.
