

Room One

Head Teacher – Corrine

This month we celebrated Easter, a joyous time to come together and create memories, to unwind and spend time together, to explore our imagination and to share a few special treats or special family traditions. We have been busy creating Easter art, painting Easter eggs and bunnies. We enjoyed dress up day and we had so much fun doing our egg hunt. We hope you all had a wonderful Easter too !

Also this month, we focused on our gross motor skills. We have a room full of children who are loving to run, jump, slide, climb, balance, and also children who are just mastering the art of walking.

We have observed their confidence grow with challenging activities we have set up, and have watched as their gross motor skills blossom. Over the next few weeks we will continue to set the environment in ways that foster and challenge body confidence and skills.

Our children are on the move and we are following them.
