

Room Three

Head Teacher – Debbie

Dear Parents,

March has been an exciting month for Room Three. We have farewelled some more of our friends who have headed off to school, welcomed new friends from Room Two, as well as some new children who have moved into our community in Riverhead.

Children who are new to Room Three have enjoyed starting the Transition to School Programme. Fun activities to help them learn about letters and the sounds they make. Numeracy introduces learning about shapes, and looking for shapes in the world around us.

Expression Through Creativity:

Our children use many different ways to be expressive and creative. They love dramatic play, setting up games that relate to both reality and sometimes imaginary. This gives them the opportunity to test out theories of the world around them. They create and express themselves through arts and crafts, music and dance, and are developing a great concept that all these creative expressions can be used to express feelings and/or deliver messages.

We would like to encourage our parents and whanau to participate in our new focus. We would love for you to share your knowledge, talents, and skills to create a rich and diverse learning environment.

Best regards,

Debbie,
