

Room Three

Head Teacher – Debbie

Dear Parents and Whanau,

Room Three have been working hard on their aspirations, which are some short-term as well as long-term goals.

A lot of children are working on being kind and being a good friend, others on developing their strength and agility, while others are working on getting ready for school. It is a lovely project and very rewarding to capture some of these milestones.

Just a reminder, if you haven't yet sent through an aspiration for your child please feel free to send us your thoughts on Storypark.

We have also been enjoying our morning programme learning about letters and the sounds they make, which is an important foundation skill for later skills needed in reading. Maths is equally fun - learning about numbers, shapes, colours, and days of the week.

We celebrated Easter with a dress up day, lots of fun games and an Easter Egg Hunt.

Debbie
