

6 part series for parents (grades 7-12)

Facilitated by Kathleen Coletta, LCSW
YES Community Counseling Center

Active Parenting OF TEENS

- Communicate effectively **with** teens (it can be done!)
- Understand a teen's goal - which is key to avoiding power struggles.
- Give your teen the tools to behave in a responsible way.
- Reduce the risks of the teen years, including alcohol, drugs, sexuality and violence.
- And much more!

***Active Parenting** is perhaps the most effective program ever offered in the "how to" of raising children.*
