Roto North America made its presence known at WinDoor 2017, an event that is widely regarded as one of the best fenestration shows in the industry. Held at the International Centre Hall 1 in Mississauga, Ontario, this year drew many visitors from Canada, the United States, and throughout the world along with over 90 exhibitors.

Roto North America showcased many of our North American and European products, highlighting our new 9100 Sliding Patio Door Handle. We displayed three window types: single hung, casement, and

tilt & turn. Roto showed sliding patio doors and swing doors that featured many of our Roto hardware products including the OP08 X-DRIVE operator, corner drive, mortise locks, the 9700/9700 Euro patio door handles, and H600 mechanical multi-point locking system.

According to Dan Gray, Director of Sales, "The show floor was filled with a lot of activity and enthusiasm. Everyone at Roto appreciated customers taking time to visit our booth last week! It was our pleasure to share Roto's product portfolio, especially the new 9100 sliding patio door handle, the X-DRIVE casement operators, and the NT Designo (concealed) hinge for Tilt & Turn windows."

### About Roto North America

Roto North America is wholly owned subsidiary of Roto Frank AG, a global leader in window and door hardware, with 17 production plants and more than 40 subsidiaries worldwide. Roto Frank of America, Inc. is Chester, Connecticut-based and Roto Fasco Canada, Inc. is Mississauga, Ontario, Canada-based. Both locations manufacture window and door hardware, which offers solutions for North American and European applications.
