

200T Frech Die-cast Machine

In August 2017 Roto Fasco Canada added a new 200Ton Frech Die-cast machine. This addition has many great benefits including:

- 20% increase in productivity
- Minimal down time
- Minimal maintenance
- Reduces rework time and rejected parts
- Produces parts at optimal capacity
- Sensors for mold protection

We are also excited to announce that we will have a second 200Ton Frech Die-cast machine coming in 2018!

Automated Setting Control Panel: Temperature, Pressure, Spray and other settings are as easy as push buttons.

Robotic Arm: Automatically removes part and lays it on cooling conveyor.
