### Roto North America to Introduce New Patio Door Handle at WinDoor

Roto North America, a recognized manufacturer of quality window and door hardware, has been a regular exhibitor at WinDoor shows over the years. WinDoor 2016, being held this year in Montreal on November 15-17, presents a perfect venue to introduce new products, including the new 9900 sliding patio door handle.

Featuring an aesthetically pleasing contemporary, yet robust design, the 9900 handle is available in a variety of powder-coat finishes and a satin nickel architectural finish. The new handle is designed for 3 or 4-hole in-line cross drilling, is non-handed, and works especially well with larger sliding patio doors. Roto North America will be at Booth #321.

With over 150 exhibitors, WinDoor 2016 features the latest products and the opportunity to connect with thousands of people within the window and door industry, from across Canada, the US and internationally.

### About Roto Frank North America

Roto North America is comprised of Roto Frank of America and Roto Fasco Canada. Founded in 1979, Roto Frank of America is a Chester, Connecticut-based manufacturer of window and door hardware. The company, which offers solutions for North American and European hardware applications, has an extensive product line including its renowned X-DRIVE™ casement and awning hardware, sash locks and WOCD, sliding patio, NT Tilt&Turn, patio fold, and hinged patio, among others. Roto Fasco Canada, located in Mississauga, Ontario, manufactures a variety of window and patio door hardware, sash locks, accessories, and provides custom zinc die-castings capabilities.
