I have taught art to people from ages 10 to 90. I prefer teaching adults. I like sharing my knowledge and skills with those who have a desire to learn how to draw. Some come to my class because they always wanted to draw but life intervened. Others started drawing as a youngster and were discouraged by a judging comment. A third group have been making art, particularly watercolor painting, and recognize more drawing skills will produce an improved painting. I like helping people learn how to make the art they want to make.

Regarding my own art, I work in both two- and three-dimensional art. What excites me is creating volume and form. I do this with a range of drawing tools and clay. My work has earned Best of Show and People's Choice awards. My work has been in a number of juried shows and I have been a juried gallery member at Desert Art Center.

I am an art teacher and also a psychologist. I draw from my doctorate in psychology developing and presenting Artist Eye Workshops. Through information and art exercises attendees learn about creativity and the difference between looking and seeing. The workshops provide information about interfering self-talk and ways to address these creativity crushing thoughts.

I hope my message tempts you to register for Everything Drawing class. Any questions call me at [707-363-2698](tel:707-363-2698) or email at csparker2005@gmail.com.
