

EMPOWERING FAMILIES: HOW PTIS AND F2FS SUPPORT YOU

Parent Training and Information Centers (PTIs) and Family-to-Family Health Information Centers (F2Fs) are federally funded programs that help families of children and youth with disabilities or special health care needs.

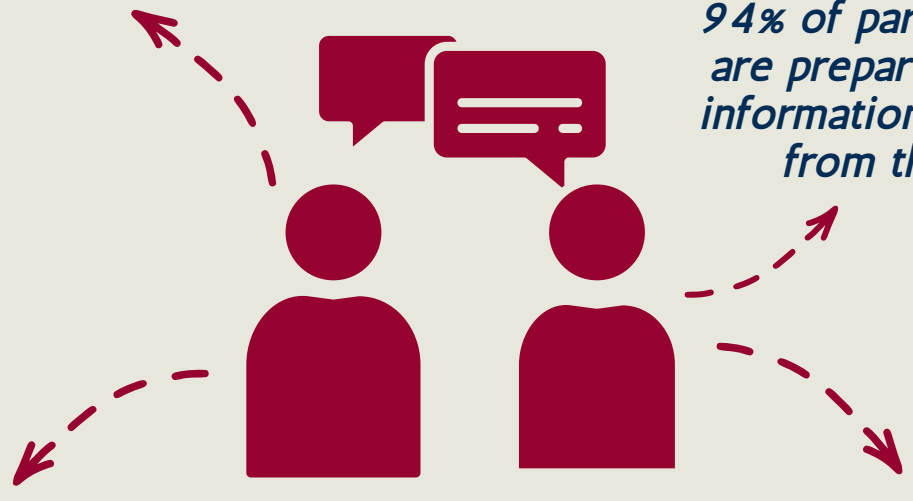

- FAMILIES LEARN HOW TO:**
- Understand their child's rights.
 - Communicate effectively with schools & providers.
 - Participate in creating Individualized Education Programs (IEPs).
 - Help shape policies that affect their children.

- SCHOOLS BENEFIT BY:**
- Hearing and respecting family perspectives.
 - Building stronger partnerships with parents.
 - Making informed decisions that reflect student needs.

WHAT WE DO:

PROVIDE INFORMATION & TRAINING
Helping families understand special education, healthcare resources, and services available in their communities. *From 2022 to 2023, about 2.4 million individuals were helped!*

SUPPORT FAMILY DECISION-MAKING
Ensuring families have the tools to make informed choices that are right for their child or youth. *About 94% of parents say they are prepared to use the information they learned from their PTIs.*

PROMOTE COLLABORATION WITH SCHOOLS
Helping schools understand the family's voice and include parents in decision-making at all levels. *Over 160,000 professionals were trained from 2022 to 2023.*

BUILD SUPPORT & LEADERSHIP
Supporting families in becoming leaders and champions in their schools and communities. *Between 2022 and 2023, over 42,000 students were assisted with training.*

WHY IT ALL MATTERS:
When families are informed and involved, students do better. PTIs and F2Fs ensure that **families lead the way** and that their voices are heard where it counts most: at the decision-making table.
