State of Wisconsin's BCE Custom Signs introduces a line of Safe Space Products

The Bureau of Correctional Enterprises Signage Division is proud to announce the release of a new product line called SAFE SPACE PRODUCTS. As society adapts to the current conditions, cautiously proceeds through the reopening phase, and proactively makes long-term plans, we feel this product line offers a diverse selection of protective shields, necessary social distancing signage, and hand sanitizing stations.

Safe Space Products At-A-Glance:

- **Protective Shields** commonly known as sneeze guards: We use a ¼" scratch resistant crystal clear polycarbonate (Lexan) material. These shields can either be a common stock item or custom built to your specifications. BCE's Safe Space Team has the ability to adapt many sizes of shields to any surface and any condition. We pride ourselves on having the capability to add personalized messages and company logos that look and feel professional. We offer standard/flat square/rectangle sizes, curved, side angles, and multi-panel interlocking in various sizes. Your private labeling options are endless, as we can engrave or direct print a business/community/school/township logo into the shield along with applying vinyl graphics to display any message. Our protective shields have a variety of mounting options from free standing to counter top mounting. Common uses for our clear shields are front reception counters, cafeteria tables, library tables, workspace tables, welcome desks, and entry way screening stations.
- **Social Distancing signs:** To include floor graphics for hard and carpeted surfaces, window, door, hall, lobby, room signage, and entry way banners. We have common stock items, such as 6 FT distance banners and hand washing station signs. From retractable banners to parking lot light pole banners, our ability to produce a custom sign for your purpose is our specialty.
- **Sanitizing Stations:** Created to be aesthetically pleasing and mobile, our sanitizing stations are versatile and easily deployed throughout any building or complex.

Catalog can be found at this link: [Safe Space Products Catalog](#)

Pursuant to Wis. Statute 303.01(1)(b) certain organizational types are permitted to access Wisconsin State Government Bureau of Correctional Enterprises Custom Signage services. Your non-profit/state entity/governmental municipality has been determined to likely qualify.

These services are offered at costs determined to be very favorable to the budgets and goals of not-for-profit, local municipalities and state government organization types. On behalf of the State of Wisconsin Department of Corrections – one of BCE's priorities is to provide low cost services while remaining financially self-supporting.

BCE does not require purchase orders nor require a bidding process prior to taking your order. Governmental purchase cards and credit cards are accepted. BCE Signage Division strives to make our business relationship seamless and maintains high service standards with all of our products.

Mailing: PO Box 8990, Madison, WI 53708 | **Business:** 3099 E Washington Ave, Madison, WI 53704

Our Mission

The purpose of the Bureau of Correctional Enterprises (BCE) is to enhance public safety by providing jobs and training for inmates. The inmates then develop marketable skills and experience in financially viable businesses while producing quality products and services for BCE customers. The bureau also contributes to meeting the Department of Corrections mission by providing opportunities for inmates to work, learn, and earn. BCE inmates earn money, then use this money, to pay financial obligations and prepare for a more successful return to their families and communities.

We have a team of Safe Space Product representatives ready to answer your questions and take orders. All of the products offered are on display at the DOC Central Office in Madison. Our sales reps will also be available for onsite consultation if necessary - *travel restrictions and social distancing in consideration.*
