Mental Health Action Day

Get ready for Mental Health Action Day on Thursday, May 19!

JOIN US

On May 20, 2021, a coalition of more than 1400 nonprofits, brands, government agencies, and influential leaders from 32 countries came together to shift our mental health culture from awareness to action on the first Mental Health Action Day! Together, we spread the message that we can take actions to improve our mental health just like our physical health far and wide, reaching over a billion views and public engagements, and we're only just getting started!

In 2022, we'll do even more together to drive our culture from awareness to action on mental health.
#MentalHealthAction

We are looking for local businesses to co-sponsor this event!

DONATIONS SUPPORT

Our mission is to connect Service Members and their families with each other and to the resources and benefits they earned and deserve, free and confidentially regardless of discharge status. Through our professionally trained Veteran Peer Specialists, we provide "help from those who've been there" for support services, counseling, program resources, and a sense of hope and purpose.
