31st Annual National AGC Safety Awards

Program Description

Why You Should Participate: The National AGC Safety Awards (NASA) program has been an ongoing effort since 1991 to offer AGC members an opportunity to evaluate their safety record. Participating members receive a confidential printout to compare their company's safety statistics with similar size and type AGC members both locally and nationally. The NASA provides a great opportunity for members with excellent safety records to compete for nationally recognized awards. Additionally, this information can be used to assist in determining if additional accident prevention and loss-control measures are necessary.

Who Can Participate: AGC members with direct-hire, job-site craft labor are eligible to compete in the following divisions:

- Building
- Federal & Heavy
- Highway
- Utility Infrastructure
- Associate/Specialty

How the Program Works: This program is similar to the Bureau of Labor Statistics and Occupational Safety and Health Administration (BLS-OSHA) recordkeeping systems. The completed OSHA Form 300A Summary of Work-Related Injuries and Illnesses provides the information needed for participation in the NASA Program.

The data is tabulated to produce total lost workday case incidence rates (excluding restricted workdays). The formula for computing "incidence" is structured to multiply the incidence cases involving days away from work (N) times 200,000. The resulting product is then divided by the work hours of exposure (WH). The formula is the days away case incidence rate.

$$\text{Days Away, Case Incidence Rate} = (N \times 200,000) / \text{WH}$$

WH is the number of work hours for the calendar year **2020** (including office hours). N is the number of days-away-from-work cases, which represents the number of cases resulting in days away from work but does not include job transfer or restricted activity. N is obtained from the total amount of entries recorded in section (H), total number of cases with days away from work, of the OSHA form 300A.

What a Member Must Do to Participate: AGC members must complete the participant form on the following page. Transfer the applicable information from your OSHA form 300A, including the work-hour data, to the participant form and provide it to your local Chapter by January 29, 2021.

31st Annual National AGC Safety Awards
Participant Form

Complete your OSHA form 300A “Summary of Work-Related Injuries and Illnesses” for **2020**.
Review your OSHA form 300A and note:

- Section (G) “Total number of deaths”;
- Section (H) “Total number of cases with days away from work”;
- Section (I) “Total number of cases with job transfer or restriction”;
- Section (J) “Total number of other recordable cases”; and
- Employment Information “Total hours worked by all employees last year”.

Report your company’s numbers from the OSHA form 300A – section (G), section (H), section (I), section (J) and work hours – to your AGC Chapter contact person, via e-mail, telephone, fax, or mail.

1. Locate your chapter code and name on the **Chapter Code List**. If you belong to multiple chapters, submit your participant form to **one** chapter only.
2. If you are unsure of your AGC Member ID Number, contact your chapter.
3. Review the **Division Descriptions** before selecting your division/construction type(s).
4. If you perform work in multiple divisions, you can do one of the following:
 - Compete in **one division** by submitting your safety statistics and work hours for that division only; or
 - Compete in **multiple divisions** by separating your safety statistics and work hours accordingly.
5. Multiple entries in the same division are **not** allowed.
6. If you perform work in multiple states, you must report all safety statistics and work hours for those states. **Do not** separate by state.

Chapter Code and Name: 40B – Master Builders’ Association of Western PA, Inc.

AGC Member ID Number ([contact Chapter if unsure](#)):

Company Name (as it should appear on the award):

Contact Person (Name, Email and Phone Number):

AGC Division/ Construction Type	OSHA Form 300A Data
