Trying to keep up with the news can be exhausting. Since the current administration has been in office there is “breaking news” every day. Members and friends, I need your assistance to move NCJWAZ from making the community aware of the news to advocating for these important issues.

Our members care about the state of our nation. They believe in the rights and freedoms of women, children and families in the United States, in Israel and the rest of the world.

We care about access to reproductive rights and health care, refugee rights, voting rights, judicial issues and gun safety. These are just a few of the areas that need oversight.

At our September 17<sup>th</sup> meeting we will be asking our members to find their passion and help make this world a better place for ourselves, our loved ones and future generations.
