## **A START EPSD Virtual Roundtable**

*Parents **ARE** part of the equation.*

*The solution requires meaningful partnerships. Let's **ALL** come together. #ParentVoices*

Family-school partnerships have never been more important than they are right now. What opportunities are there for you to partner with your child's teacher, with the school district, or even with other parents to improve outcomes for students with disabilities? Let's come together and start conversations about newly released 2019-2020 School Performance Reports, identify gaps in information, and begin to find ways to address the impacts of COVID-19 to ensure all students receive the support that they need.

Special guest speaker: Jessica Merville, Director, Office of Performance Management, New Jersey Department of Education

This is a great opportunity for parents, Special Education Parent Advisory Group (SEPAG) members, school and district staff, and community members to attend and share strategies to build powerful partnerships that will benefit students and their families.
