

Dementia Service Specialist Consultations

Support, guidance, and compassion for those affected by dementia

We understand how overwhelming dementia can be for both individuals and their families. That's why we now offer Dementia Service Specialist (DSS) Consultations, a dedicated service designed to provide personalized support, guidance, and resources to those navigating dementia.

What to Expect from a DSS Consultation:

Our consultations are tailored to meet each person where they are. During your session, a trained Dementia Service Specialist will:

- Assess the current situation, including symptoms and stage of dementia.
- Help develop a clear care plan
- Provide vital education on dementia progression, home safety, and communication tips.
- Offer tools and strategies to support caregivers.
- Connect families to local resources such as support groups.
- Facilitate a unique dementia simulation experience to help caregivers better understand dementia.

Every consultation ends with a personalized roadmap and referrals to trusted services, ensuring you're not just informed, but also equipped for what comes next.
