

FIRST ANNUAL **ONE DARK HOUR**

To participate in One Dark Hour, simply turn off your outdoor lights between 9 and 10 p.m. on **Friday, April 22, 2022**. Then go out and look for stars.

We encourage you to tell your neighbors to magnify the effect.

Observatory Park at Turner Farm will be open for a free Friday viewing session in observance of One Dark Hour. If it is raining or completely cloudy, the observation session will be postponed until April 29, 2022.

It takes 15 minutes for your eyes to adjust from a lighted area, so give yourself time to let the stars appear, you won't be disappointed.
