

BRADLEY PROLAST® RETROFIT KIT

Performance, Reliability and Water Efficiency

Commercial Washrooms. Brought to Life.

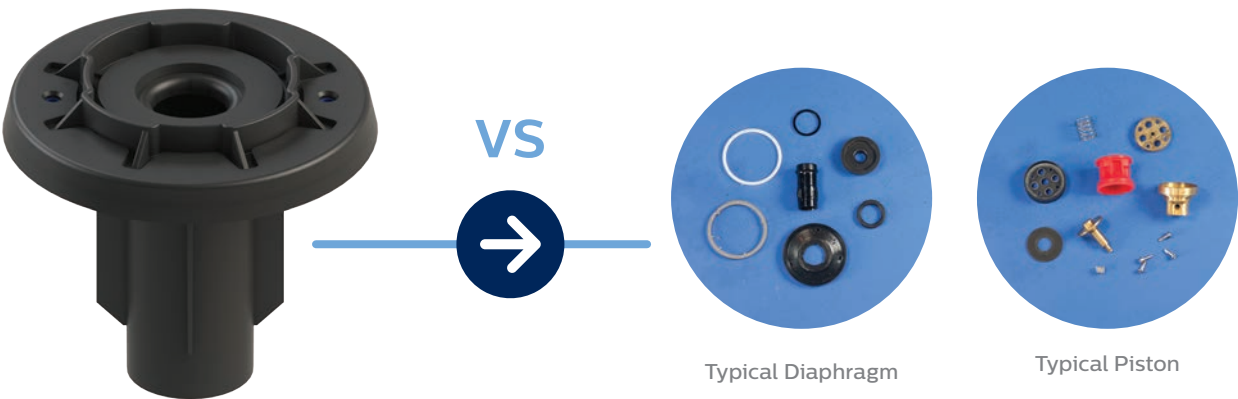

A WATTS Brand

Bradley's ProLAST® T-Seal is an innovative technology that replaces traditional rubber diaphragms in flush valves.

SIMPLE

The ProLAST T-Seal is the only single unit design product on the market, eliminating issues of failed multiple parts and reducing maintenance.

POWERFUL

Revolutionary design, greater reliability, & better performance.

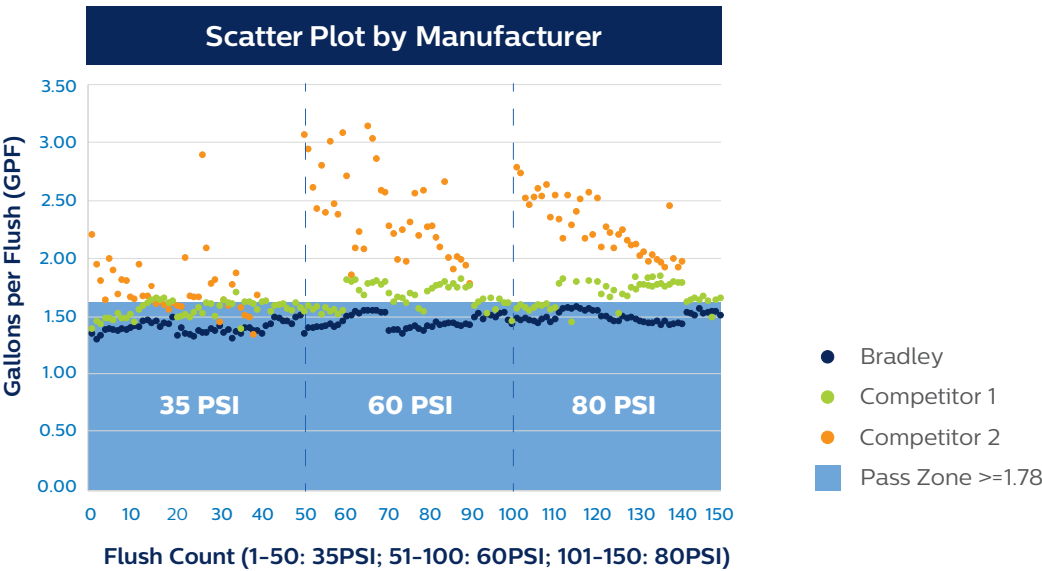

Lasts up to
5X Longer

Seals as
low as
12 PSI

**Integral
Stainless
Steel Bypass
Filter**

ACCURATE

Most accurate system on the market. Smallest flush volume variance as compared to competitors.

Product Specifications

- Patented ProLAST T-Seal, featuring a single-piece design, glass reinforced polymer substrate with TPE overmolded seals
- Integral, stainless steel bypass filters
- TPE overmolded seals are chlorine and chloramine resistant to prevent failure in the worst water conditions
- Dynamic sealing design provides accurate and consistent flush performance over time

Flush Valve (gpf) & Bypass Color

Water Closets		
1.1		Pink
1.28		Blue
1.6		Orange
2.4		Red
3.5		Purple

Urinal		
0.125		Green
0.25		Yellow
0.5		Black
1.0		White

Bypass Color

Easily retrofit the following valves:

- Sloan Regal®
- Sloan Royal®
- Zurn AquaVantage AV®
- Zurn Aquaflush®
- Zurn® Manual Exposed Flush Valve

“We had the new valves installed about three years ago during a remodel of five units, with 210 valves installed. In three years we have only used four flush kits. Previously, we were replacing around 15 competitor flush kits in a single year. The valves have proven their worth.”

Michael Desper, Maintenance, Northern Nevada Correctional Center
