

BMCP Communications and Issues Management
2917 Simpson Avenue
Ocean City, NJ 08226

Brian McPeak, President and Principal.

BMCP Communications and Issues Management is a strategic communication and issues management consulting practice, specializing in facility siting, stakeholder engagement and issues management. The key industry sectors it serves include both on-shore and offshore wind, chemical and related sectors, building and industry materials, and environmental-related causes. The firm, and its' Principal, Brian McPeak, has extensive experience partnering with other management consultants and clients to successful site, permit and facilitate industrial activities among highly aware and engaged citizens. The firm is an active member of the South Jersey Chamber of Commerce and the Business Network for Offshore Wind.
