

# ParishSOFT Giving Online Giving Option

The safety and well-being of your parishioners, staff, and community members is paramount. During this time of need, parishes looking for an immediate online giving option are encouraged to consider **ParishSOFT Giving**, which offers:

- Online donation collection through a customized giving page for parishioners and donors to access via your website or anywhere you share the link.
- Text giving, which allows parishioners and donors to make fast, simple gifts.
- Complete integration, so there is no need to import your online contribution data.

CCF has leveraged our partnership with ParishSOFT Giving to waive the \$250 set-up fee. Additionally, your parish would qualify for the rates provided here. In the current landscape, CCF is also offering to pay the \$100/parish project management fee if you sign up in March 2020.
