

Customized Training

Have you identified a skill gap within your organization? Do you believe you can get the results needed with the right guidance? DCTC delivers high-quality technical & professional education in career-oriented programs that benefit today's workforces and the businesses and industries they serve. Whether your organization is for-profit or non-profit, private, public or government, we have experience in a wide variety of industry settings.

Training that supports your needs

Let our experienced educational advisors at Dakota County Technical College help you find the right training solution for your needs. With DCTC Customized Training you get REAL EDUCATION, REAL RESULTS.

We bring training to you

Our mobile technology and laptop labs allow flexible delivery options—let us bring training to your worksite or come to campus.

We tailor training for you

Your processes are unique and so are your training needs. Customized Training from DCTC is highly tailored to suit your business.

We are leaders in training innovations

DCTC is on the cutting edge of business advancement in helping you create a more profitable operation.
