

BEAT THE (((BEEP)))

Is it Time to Replace Your CO Alarms?

As of July of 2011 California passed a law requiring carbon monoxide (CO) alarms in most residences. Many of the units installed at that time have already or will soon reach the end of their 7-year useful life, and will begin beeping every 30 seconds.

NOTE: Once an alarm sounds its end-of-life warning, it will not detect CO – leaving families unprotected.

It's the law in California:

Effective JULY 1, 2011:
Single Family Homes

Most single and multifamily homes are required to install CO alarms outside of each separate sleeping area in the immediate vicinity, and on every level of the dwelling (including basements).

Effective JAN 1, 2013:
Multi-Family Homes

Beat the Beep. Stay Protected with Kidde's UL-Listed CO alarms:

All Kidde CO alarms now last ten years! (units manufactured after Jan 10, 2013)

C3010:
Ten-year
Battery

KN-COP-DP-10YL:
Plug-in w/ Ten-year
Battery Backup
and Digital Display

i120105-CO:
Hardwire Combo
Ten-year Battery

Ordering #	Model	Power Source	Features	Configuration
• Battery Operated (DC)				
21010073	C3010	10-Year Battery	CO Alarm w/ 10-Year Sealed Battery	Box - 6-pk
