May 20 | [Visual Media for Inspiration and Engagement](#)

Thursday webinar, 3:00–4:00 p.m. (Eastern) via Zoom, \$0-\$20

Visual media ranks among the most engaging forms of content in digital spaces, but it can be a challenge for faith communities to navigate. Join visual artist Mary Button of [Mary Button Studios](#) and Rev. Jo Nygard Owens of [Vibrant Church Communications](#) for conversation, ideas, and tips on an exciting topic holding significant importance for the church of the future.

June 9 & June 16 | [Being a Top-Notch Hybrid Church](#)

Two-session masterclass with follow-up office hours, via Zoom, \$79-\$99

We firmly believe that the digital church is here to stay. But what's the best way to do online and in-person worship? Experts in their fields will share research, provide tools, and offer customized training in the following four areas:

- producing for the medium,
- creating a true digital community,
- fundraising effectively for sustainability, and
- examining the missional theology of a hybrid congregation

Each participant will leave with an action map for application in their context. We encourage congregations to invite a "hybrid ministry team" to participate.
