

# “Makeup for the New Normal: from Everyday to Digital”

Professional Makeup Artist and Global Educator Terri Tomlinson shares insight into looking good on camera while keeping your makeup modern and flattering for everyday life. As we mature the message is to wear more, but heavier makeup, especially on camera is very aging. How do we care for our skin, look and feel good and about ourselves in all walks of life? Join Terri as she talks color, texture and technique for the new normal. *Bring your favorite cocktail and join us via Zoom to learn how.* Plenty of time to socialize, too!

## Guest Speaker

[Terri Tomlinson](#) is a working makeup artist, global educator and creator of The Flesh Tone Color Wheel™. She has worked in the beauty and production industries for 30 years and opened “Makeup Training Academy” in 2010. Terri currently travels the world teaching her new method of color theory in neutrals, works with cosmetic brands on color development and trains professional makeup artists. As a working makeup artist, Terri began her career working with lines like Bobbi Brown and Prescriptives. Later, after studying makeup for camera at MUD, she began working in the production industry. There she created super natural camera ready makeup for all mediums, focusing on HD and commercial print. Terri’s Makeup Studio is located at 15713 Quorum Dr. in Addison.
