

## MDE Equitable Service Training

December 4, 2018

**Join the Michigan Department of Education for an equitable service training for Local Education Agencies and Non-public Schools!**

This three-hour training will review the consultation process between Local Education Agencies (LEAs) and private schools and updated information on Title funds including examples of allowable services such as early childhood services and after school services.

In addition, a brief overview will occur on how to file the non-public school membership report and troubleshooting common errors.

**The Michigan Department of Education is coming to you!**
