

### **III. Michigan State Police Criminal History Internet Subscription Service (CHRISS)**

The Michigan State Police has implemented the new web-based portal, Criminal History Internet Subscription Service (CHRISS). The new portal will allow schools to receive background check information immediately after the fingerprint process takes place. **In order for schools to gain access to the CHRISS system, one member of the school who is a part of the hiring process must attend a mandatory *NCJA Audit, Security, and Access to Criminal History* training.** Trainings will be posted at [www.michigan.gov/cjicacts](http://www.michigan.gov/cjicacts).
