

### **TEACHER EVALUATIONS**

In order for a teacher to progress from a provisional certificate to a professional or advanced professional certificate the teacher must be evaluated on an annual basis that meets the criteria of MCL 380.1531. MANS is currently working with MDE's Office of Professional Preparation Services (OPPS) on how non-public school teachers can advance their certificate without a mechanism under the current law that addresses how teachers are evaluated at non-public schools. A MANS committee is looking at the various evaluation processes within non-public schools. The goal is to develop a system where non-public school teachers can advance their certificate in a manner consistent with state law.
