

TEACHER+

TEACHER+

THE SUPPORT YOUR TEACHERS NEED

Designed for CTE teachers, teachers in years 1-3 of their careers and those with specific IDP needs, the Teacher+ content consists of six carefully crafted online modules that may be accessed by PK-12 teachers statewide via Michigan Virtual. Each of the modules consists of readings, self-reflection, planning, implementation and goal setting. The modules build upon the educators' core knowledge in key areas, including classroom environment and culture, student engagement, lesson design, assessment, culturally responsive teaching and professional collaboration and evidence-based decision making.

WHAT SETS THE TEACHER+ MODULES APART

Designed around current research and follows a predictable flow consisting of readings, self-reflection, implementation, and goal setting.

Individualized feedback is provided on all submissions and adaptations will be made based on the unique needs and circumstances of each educator.

Personalized individual or group coaching, collaborating and consulting, via phone &/or email.

Modules are competency-based to ensure application of learned content and skills.

Modules may be taken in the suggested sequence, intermixed or as individual modules based on needs and desired learning outcomes.

Modules are connected to the National Board Teaching Standards as well as various state observation and evaluation tools.

20 SCECHS will be awarded upon successful module completion (included in the price)

SPECIAL INTRODUCTORY PRICING

\$100 introductory rate (That's a \$150 discount!)

Badging micro-credentials will be awarded (included in the price)
