Electronic Citation Data

2022 full year through the end of February 2023
13th and 14th between Colorado and Yosemite

- Citation and warning data are excluding those that successfully associated with a crash. Additionally, any ticket not properly geocoded was excluded from these results.
- The intersections at Colorado and at Yosemite were excluded.
- DPD issued roughly 90-95% electronic tickets with the remaining as paper tickets. Paper tickets go directly to the courts and cannot be included in this data set.

W = Warning Issued
M = Municipal Citation Issued
