

SPLOST POSITION STATEMENT

For the past 36 years, Bulloch County residents have benefited from investments in infrastructure and capital projects thanks to the Special Purpose Local Option Sales Tax, or SPLOST.

The Chamber board believes SPLOST is a fiscally responsible way to generate capital funds, since visitors to Bulloch County contribute to this sales tax collection. Without SPLOST, a substantial increase in property taxes is the most likely alternative.

On March 18, voters in Bulloch County will be asked to endorse a new \$138,000,000, six-year SPLOST. **In endorsing the continuation of the county's existing one penny special local option sales tax**, the Chamber anticipates projects financed by the tax will support the county's increased infrastructure needs, continued public safety support, a growing economy, and an enhanced quality of life desired by residents.
