

FPL Nuclear has established a Covid Protocol affecting SGSC’s employees who are not fully vaccinated against COVID-19 and who are working at Turkey Point, St. Lucie and Point Beach this Fall 2021 season.

- **All SGSC Employees who are assigned to work at Turkey Point, St. Lucie and Point Beach this Fall 2021 season AND ARE NOT fully vaccinated, as defined below, are required to wear face masks while on site and take COVID-19 Antigen tests twice a week.**

- **Definition of being fully vaccinated:**
 - Two weeks after the second dose in a two-dose series, such as the Pfizer or Moderna vaccines; or
 - Two weeks after a single-dose vaccine, such as Johnson & Johnson’s Janssen vaccine.

- **Specifically, all SGSC Employees who are not fully vaccinated against COVID-19 are required to :**
 - When they report to site, they are to meet with the SGSC Designated Safety Representative who will provide them with face masks and at-home Abbott BinaxNOW COVID-19 Antigen Self-Testing Kits.
 - They are required to take the at-home Abbott BinaxNOW COVID-19 Antigen Self-Test provided by SGSC twice a week (on their 1st day of work and then on every Sunday & every Thursday) until their work at the FPL Nuclear site is complete.
 - They are required to Self-report their results of every test to SGSC Designated Safety Representative or his designated representative within two hours after completing each test.
 - If any SGSC employee tests positive on any test, they are not to report to a NextEra Energy facility.

I have read the above and understand FPL Nuclear’s (the Customer’s) requirement and I agree to comply with this requirement.
