

## Coronavirus (COVID-19) Update

May 8, 2020

### Vogle 3&4 COVID-19 Testing Status

We were notified today of six individuals who tested positive for COVID-19, bringing the total number to 204 positive test results among workers from our site. With each person tested, we act quickly, self-isolating the individuals, along with the personnel who have been in close proximity to them, immediately after learning they have been tested for COVID-19. Currently, approximately 263 workers are self-isolating under these precautionary actions.

As of today, 150 individuals who tested positive for COVID-19 have recovered and are available to return to work. Additionally, 617 individuals who did not exhibit any symptoms but were self-isolating due to being in close-proximity to someone with a positive test result, have cleared their 14-day self-isolation and are available to return to work.

*Active Confirmed Positive	Test Results Pending	**Clinician-directed Isolation	***Eligible to Return to Work		Total Confirmed Negative	Total Confirmed Positive	Vogle 3&4 team members tested for COVID-19

Updated as of Friday, May 8, 2020.

\*Individuals who tested positive for COVID-19 and not yet available to return to work.

\*\* Individuals who have been directed by their medical provider to self-isolate based on clinical diagnosis, but no laboratory test was conducted. While COVID-19 testing is performed at the Vogle 3&4 onsite medical clinic whenever deemed appropriate, decisions about testing at offsite facilities are at the discretion of state and local health departments and/or individual clinicians.

\*\*\* Individuals who tested positive for COVID-19, have recovered and are available to return to work are listed as “recovered workers.” Individuals self-isolating due to being in close proximity to someone with a positive test result, are available to return to work after 14 days of self-isolation and received medical clearance are listed as “close proximity workers.”

### Laboratory-confirmed Cases by County

### Medical Clinic Information

- **On-site medical clinic:** The clinic should only be used by those who are showing symptoms and/or feeling ill to allow us to treat those personnel as quickly as possible.
  - Free testing, no copays and access to dedicated medical professionals
  - Open Monday-Saturday, 4 a.m.-9 p.m.
  - Wait time for COVID test results: 24-48 hours

If you are feeling ill, you can also call the flu hotline at 706-437-7600. In case of a medical emergency on the construction site, call the Emergency Response Team at 706-360-2510. In case of a medical emergency at home, call 911.

- **Close-proximity testing requires reservations:** A reservation hotline has been set up to accommodate appointments for workers who have been in close proximity to another worker who has tested positive for COVID-19.
  - Those who are eligible will be notified that they are able to receive a COVID-19 test at the onsite medical clinic.
  - Reservations may be made by calling 706-437-7679 or 706-437-7670

Scheduling close proximity-associated testing helps improve the efficiency of our medical clinic as we aim to provide each worker that may be feeling ill with the care they need.
