

# VersaLink C8000 Review

## REVIEW OF THE VERSALINK C8000 COLOR L.E.D. PRINTER

Xerox has rolled out a heavy-duty, Tabloid size version of the L.E.D. VersaLink series. We continually test new machinery, cull through the myriad of candidates and only offer up the best of the best. This one certainly made the cut.

The C8000 delivers superb, over-the-top, print quality, even on our heaviest plastic media (LaserTag™ 310). With particular and specific driver settings and other adjustments on the 5" touch screen control panel, color accuracy and toner adhesion are *impeccable*.

The exactness and amazing print quality from the C8000 rivals that of 1/2 million dollar offset & flexographic presses.

Compared to predecessors, this machine has fewer moving parts, strengthened paper path components & an "Extra Heavy Cardstock" setting, all of which contribute to our enthusiastic 'Best Yet!' rating on this printer. We *really* like it.

It is larger (and a tad bit louder) than Letter-size printers, but if you demand 'professional color and accuracy', it certainly earns its space. It delivers true Graphic Arts/Print Shop quality on all common sizes, "tiny-to-tabloid"; it even prints 'Bench Tape' up to 12.6" x 52".

Best use for the VersaLink C8000 is for those who are meticulous about print quality; those who print significant amounts of heavier cardstocks; or those who need 12" x 18" print capability with a generous Duty Cycle. Overall, a big 2 thumbs up.

## Quick Facts

### VersaLink C8000

09/24/2020

#### PRODUCTIVITY / SPEED

Up to 45 Pages per minute, Color or B/W  
1200 x 2400 native resolution  
10/100/1000 BaseT Ethernet (Gigabit)  
1.6 GHz Dual Core Processor, 4Gb RAM Std

#### PAPER HANDLING / CAPACITY

ByPass Tray: 100 sheets  
Trays 1 & 2: 520 sheets each  
Additional trays and finishers optional

#### SUITABILITY FOR HORTICULTURE

Prints *excellent* on LaserTag™ 305, 307, 310 and LaserLabel™. Printer utilizes High-Gloss Emulsion Aggregate toner for superior UV-resistance. Output is completely waterproof.

#### PHYSICAL & ENVIRONMENTAL

24.4 x 28.5 x 28 in., 178 lbs. Energy Star Qualified.  
Operating: 50 to 83° F, 15%-85% Humidity. 120V, 12A; requires *direct wall plug-in*, with *no* surge protectors or extension cables. Network, USB or WIFI (optional) connectivity.

#### COST & CONSUMABLES

##### VersaLink C8000/DT

MSRP: \$2999, your price **\$2589** Valid thru 9/30/20

- Existing Xerox Customer "Loyalty Rebate": **\$259**
- Ships with standard cap toner (8000 pgs\*)
- Expect \$250+ freight cost. Big & heavy; you might consider using Rigger services (inside delivery and setup).
- Primary Consumable supplies:  
C/M/Y HiCap toner (16,500 pgs\*) \$453 ea  
K HiCap Toner (20,900 pgs\*) \$357 ea  
Drum Cartridge (190,000 pgs\*) \$199 ea  
\*Yield is based on 5% coverage on LTR size page.  
Typical Horticulture use yields about 50-60% of 'stated life' on Toner, 70% on Drums.
- Estimated Consumables cost per page, for Typical Horticultural Coverage, on Letter-sized page is about \$.18/sheet.

1 year, next business day warranty
