

## American Wilderness Leadership School Wish List August 2020

This list contains items that can be considered budget relieving and/or not in the budget at this time.

Education Sables appreciate the continued support of SCI Chapters and Individuals for AWLS programs and facilities. It is through AWLS that SCI communicates with educators and promotes science-based wildlife management, conservation and the positive role of hunting. Educators reach hundreds of thousands of young people with a positive message about hunting.

### Most Desired Items
