

To the MCS Community on behalf of the MCS Technology Team,

The first week of Remote Learning is in the books. As a team, we all want to thank our MCS families for the patience you have shown as we continue to work to bring about the best possible solutions which allow MCS teachers to provide your students with high quality learning opportunities and ways to feel connected with teachers and classmates during these days of social distancing.

As previously communicated, providing efficient online instruction required changes to our filtering system. With this in mind, we ask all parents to join us in close partnership to monitor and provide boundaries for student use of technology.

To aid families with Remote Learning, the MCS Tech team is providing resources to address common situations you and your child may encounter. These resources are accessible by clicking on the links below and can also be found on the [Remote Learning](#) section of the [MCS website](#).

Common Technology Solutions

- MCS Enrichment Resource Board -
 - Access issues to the Enrichment Resource board when logged into Google as an MCS student has now been resolved.
- [iPad Performance Issues](#)
- [Google Apps and Google Classroom](#) -
 - Please ensure that the following apps Google Classroom, Google Drive, Google Docs and Google Slides are accessible on your device and ensure that the student is logged in to these using their MCS account.
- [Pearson Realize](#)
 - How to login and use the pearson realize program

We are continuing to make improvements so that Remote Learning is conducted as issue free as possible. Please be assured that the MCS Tech team is here for you. The best way to reach MCS Tech team is through our helpdesk ticket system at [MCS Helpdesk](#). Alternatively you can send an email to helpdesk@marinerscs.org.

Thank you for your partnership and support.

In His service,

The MCS Tech Team
