

Dear SMV Parents,

SMV will be hosting a book fair with Ignatius Press from **Monday, February 24 through Friday, February 28.**

Proceeds from the fair will go toward enhancing our Junior High selection of library books!

Students will have two opportunities to shop IN PERSON during their designated library times (or ELA class for the junior high). However, everyone will have access to participate ONLINE the whole week. **To participate online, you must first create an account** (see instructions below). Online participation *is not* required,

it is an opportunity for parishioners/extended families, or for those who simply prefer it.

Fast facts for the IN PERSON book fair:

- Please send cash with your students in an *envelope* with their **name** and **classroom number**.
- Parent volunteers will be assisting with purchasing and exact change. Students will receive printed receipts.
- We encourage you to visit <https://store.ignatiusbookfairs.com/> to browse the catalog before the bookfair and have students create a wishlist (see back side). This will help in deciding how much cash to send and aid in efficiency.
- If the fair runs out of copies from the student's wishlist, payment will proceed normally. Orders will be shipped to school and distributed.
- Teachers have created classroom library wish lists so if you generously want to fulfill an item, send extra cash and we'll take care of it! 😊
- We encourage families to share the shopping link <https://store.ignatiusbookfairs.com/> with grandparents, godparents, aunts and uncles; your friends (homeschool parents); and your colleagues and neighbors!

Direct questions to Catherine Raster (craster@stmaryeg.org) and/or Courtney LoCoco (courtneylococo29@gmail.com). Looking forward to a stellar fair. Happy reading!

**To create an account to place an ONLINE order, visit:
<https://store.ignatiusbookfairs.com/>**

1. Click "Sign Up"
2. Click "Create an Account," then choose your role
3. Fill out your information: name, email, create password
4. Add your child's name (there will be an option to add multiple children)
5. Find your school with zip code and/or State. Click "search" and select your school
6. Choose Classroom and Confirm
8. Click "Get Started" or "Add another child" to repeat the process until all students are added
