

SF Child Care Providers' Association

SFCCPA MISSION

The San Francisco Child Care Providers' Association is dedicated to working for the highest quality early care and education for all of San Francisco's diverse young and families by recognizing and strengthening the influence and expertise of early care educators and building unity with families and community allies to access needed resources.

SFCCPA regular meetings

SFCCPA holds monthly meetings and a Creative Action Network (ECECAN) for topical presentations, network opportunities, information and updates, while developing meaningful tools, events, and actions to broadcast our message to the San Francisco community and make a change. Meetings are responsive to participant interests. Come to the next meetings to create stories and choreograph a book reading for our community rally, *Walk Around the Block*.
