I³ Core Tenets for CoPs

Respect is both mutual and reciprocal. It is fostered through honest and authentic communication and actions.

Compassion is critical for and from all members. Within a community of diverse perspectives, members must develop an agile sense of sympathy and empathy for others.

Inquiry is cultivated as a mindset committed to creativity, perspective taking, problem solving, and collaborative critical thinking.

Responsive Collaboration requires shared power and accountability among and between all members of the CoP.

Integrity is the foundation and frame for the core values outlined above. It is our calling as leaders to hold ourselves, and each other, accountable to the highest standards of professional practice.
