# M&L Certification Index

An Indicator of the Level of Front-line Workforce  
Certifications for Manufacturing and Logistics by  
States and Within States

*A guide to assist companies and state economic development  
agencies in decisions about where to locate plants and  
distribution centers*

Data Provided by the Manufacturing Skill Standards Council

July 2017

# INTRODUCTION

An industry-led, non-profit organization, the MSSC is the nation's leading training and certification body for the industry-wide core technical competencies for front-line production work (entry-level up to first line supervisory) in advanced manufacturing and for front-line material handling and distribution work in the closely related distribution-logistics industry. MSSC offers the Certified Production Technician (CPT) certification for manufacturing and the Certified Logistics Technician (CLT) for distribution-logistics.

MSSC delivers its training and certification assessments through a network of 1800+ MSSC-trained Instructors and 1000+ MSSC-authorized Assessment Centers, mostly at community colleges and secondary schools, in 49 states plus D.C. To date, it has given more than 153,000 assessments and issued more than 113,000 credentials to more than 50,000 individuals. Inasmuch as those numbers are now growing rapidly, MSSC has decided to start an index of MSSC CPT and CLT credentials in the manufacturing and the logistics industries (M&L).

This "MSSC M&L Index" is intended as a data-based resource that companies and state agencies can take into account in their decisions to locate a new plant or distribution center. The availability of a robust pipeline of high skilled workers is a key factor in these decisions. A substantial number of MSSC CPT and CLT certified technicians is a solid indicator of the commitment of that location to filling that pipeline.

This Index does not include all CPT and CLT credentials issued nationwide. To ensure that it provides a sufficient level of data to be relevant to locational decisions, the Index selects only the leading user states and the assessment-training centers within each state that are above the national average of 140 MSSC CPT and CLT certifications per Assessment Center.

Under these criteria, the number of states that are above the national average is 31. For convenient reference, those states are listed alphabetically in the tables, with the ranking of each state within the 31 indicated next to the name of the state. To secure contact information for individual MSSC Assessment Centers listed in the M&L Index, go to "Locations" map at [www.msscusa.org](http://www.msscusa.org). ***If your state is not in the Top 31 or you would like it moved to a higher ranking, please contact Raquel Davila ([rdavila@msscusa.org](mailto:rdavila@msscusa.org)) for suggestions on how to boost your numbers of MSSC credentials.***

MSSC would like to express special thanks to Harry C. Moser, President and Founder of the Reshoring Initiative, for suggesting this Index. The nation's leading expert on reshoring, Mr. Moser has written and testified extensively about the high importance of the availability of a higher skilled workforce for those making plant location decisions, including when re-shoring. See especially <http://reshorennow.org/blog/effective-actions-to-promote-skills-training/>.

NOTE: Since MSSC is experiencing substantial growth in the number of certifications it issues nationwide, it will update its "M&L Index" semiannually.

## Ranked list

Ranked #	State	# of assessment centers	# CPT Credentials	# CLT Credentials	Total # Credentials
1	IN	139	19,988	1,692	21,680
2	FL	90	15,606	585	16,191
3	SC	21	10,126	509	10,635
4	OH	61	8,909	1,466	10,375
5	WI	83	9,281	226	9,507
6	TX	89	3,507	3,496	7,003

24	VT	1	644	0	644
25	NJ	10	596	25	623
26	CO	4	510	90	600
27	OR	4	521	0	521
28	LA	5	222	111	333
29	NE	7	192	134	326
30	NV	3	14	188	202
31	WV	3	191	0	191

**NOTE:** MSSC has authorized Assessment Centers in 49 states. We do not list all 49 states in the rankings above, since this “Index” is designed for the economic development community. In our view, any state that has a total number of MSSC credentials under 190 is not statistically significant in terms of economic development decisions related to locating factories or distribution centers. If any economic development organization is interested in credentialing numbers in states other than those listed above, however, they should contact Raquel Davila at [rdavila@msscusa.org](mailto:rdavila@msscusa.org).

## Detailed list by state
