

### REINTEGRATION

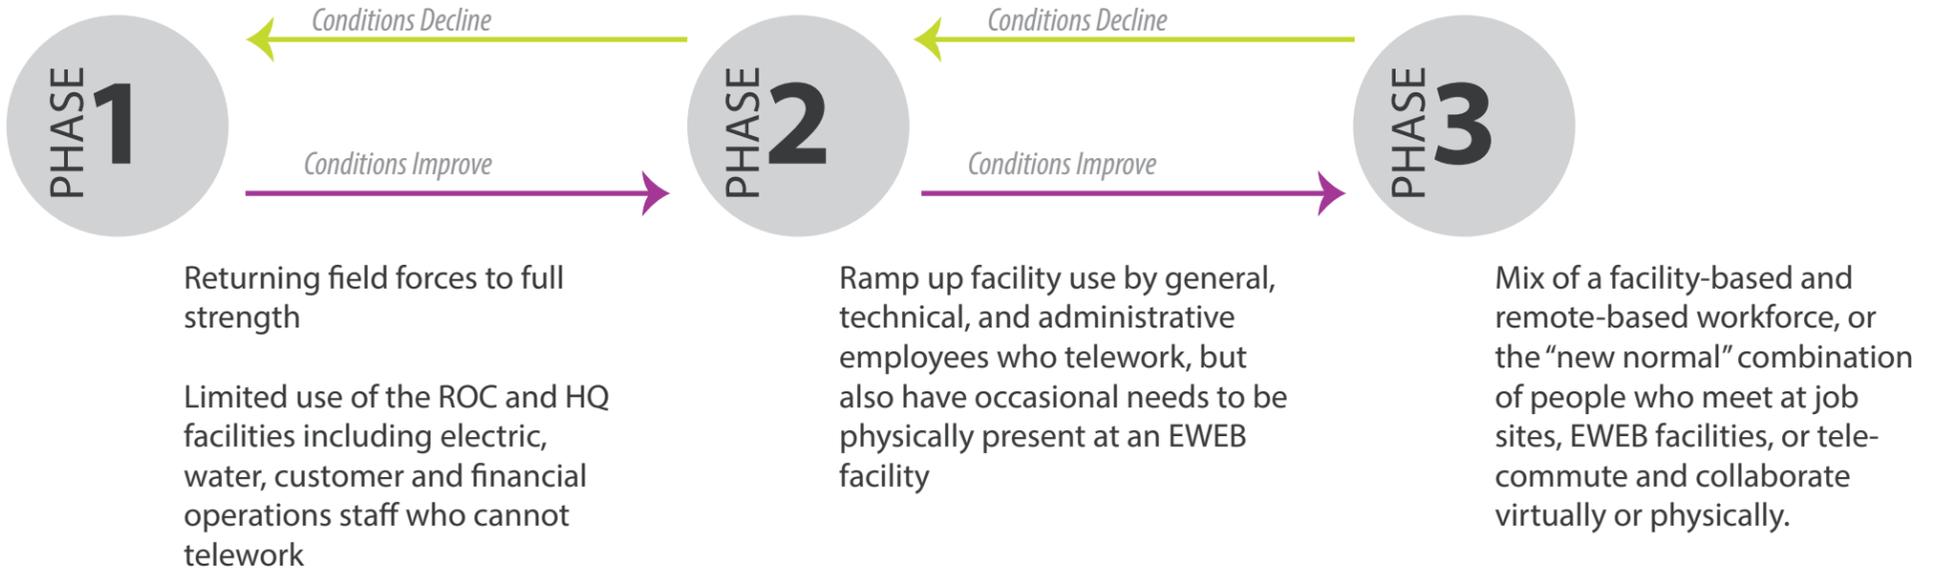

Gradual & responsible return to EWEB facilities

Processes & policies to support a reset of how we work

### REINTEGRATION IN THREE PHASES, OVER A NUMBER OF MONTHS

Decisions related to who, when, and why we return to work sites will be based on evolving health directives, workforce and community health conditions, and our organizational readiness.

### A FEW THINGS HAVE CHANGED...

**1**

Face covering is required for facility entry & in all shared spaces.

**2**

Where exposure and conditions warrant, we may use elevated health screening to protect a work group as a condition of reporting for duty.

**3**

Maintaining 6 feet of social distance between individuals will require conscious behavior change.

**A lot of other things haven't changed. One being, our commitment to safety. We will continue to stand in this long-held organizational value. Thank you for your help and for respecting each other's health and safety.**
