

We are offering all new freshman students open appointment opportunities to set up their computers with Gmail, FACTS| Renweb, Naviance, and Microsoft Office. There is no cost for these items and all four of these portals will play a big part in your VCHS academic experience. If you like to be prepared and work out any issues before school starts, join us for one of the following sessions to get set up. **If you are unable to attend, please know that the boot camp during the first day of school will also be available for these installations. No appointment is necessary and you may arrive anytime within the time allotted. Please remember to bring your device and you will find us located in the "Senior Lounge" which is located right past the front desk on the right.**

Gmail - your email address is set up - activation of the account is needed.

This is the school information system. You will see your grades, homework assignments and all academic related items in this portal.

Is a comprehensive college and career readiness program that helps students align their strengths and interests and plays a large role in the college application process.

This installation takes approximately 5-10 minutes per computer and is free to all VCHS students.
